REMARKS

This is UNEVALUATED Information

The following observations were made in the Waellich Hof military post between 1230 and 1400 on 1 October 1954:

25X1

1. Three sentries, including one wearing red-bordered black epaulets with artillery insignia, were posted in the entire installation. Two additional motor vehicle wash racks were established in front of the entrance gate at Kessler Weg where one such wash rack was already built.
2. About 20 fuel drums and several practice bombs were stored in the western section of the installation.
3. About 300 motor vehicles were parked in the installation. About 80 percent were trucks, the remaining 20 percent were van-like trucks and tank trucks.

25X1

4. A sedan with [REDACTED] driver of which wore red-bordered black epaulets left the installation and proceeded toward Moedling. There was no personnel traffic. Twelve men wearing blue overalls did maintenance work on several motor vehicles in the installation.
